

**Clarence W. Murray, III, Ph.D.**

Dr. Murray is the Assistant Director for the Sterility Devices Team. He is responsible for providing leadership, management, guidance, and regulatory science opinions for sterility devices which include sterilizers and the accessories used with this device in the healthcare setting and postmarket and compliance issues for these specific devices. Along with his premarket and postmarket work, he is the co-Program Advisor for the Sterility Focal Point Program; a US technical expert on the ISO/TC 198/WG 6 Chemical Indicators working group; and works closely with ISO/TC 198/WG 4 Biological Indicators working group as an invited technical expert.
